When you were born, you could not sit up, walk or talk. You could only drink milk and water.

As you grew older, you learnt to sit, to walk and to speak. Now you are a child. You are tall and strong.

You will grow up to be an adult. You will become like your parents.

Many many years later , you
will grow old like your
grandparents.

All living things grow.

Baby animals grow into big animals.

Little plants grow into big plants.
