PASSAGE 1

Trees are of importance not only to man but also to birds and animals. The branches of trees give shelter to millions of birds and forest give shelter to numerous wild animals. We value trees not only for their usefulness but also for their beauty. They have a way to refreshing the eye and also refreshing the mind. Perhaps that is why the *rishies* of olden days were drawn to the forests, and they and their peoples chose to going forest homes in company of Nature. In modern times when Rabindranath Tagore started a school, he too chose a place full of trees and called it *Shanti Niketan* or the home of peace.

Once upon a time large areas of India were covered with forests full of numerous kinds of trees. As the population grew, trees began to be cut down for mans use. That is how the wonderful forest described In our ancient poems came to be destroyed, and a great part of our forest wealth was lost. Now we are trying to replace this loss, and our government wants trees to be planted all over the country. A new festival called ‘Van Mahotsava’ has been started for this purpose. Since trees are the country’s wealth we must consider it our sacred duty to protect them. We should plant new trees wherever we can and look after them well.

On the basis of the reading of the passage, answer the following questions in brief:

PASSAGE 2

We must do all we can to stop conflicts and civil war. Most conflicts happen in poor countries, especially which are badly governed or where power and wealth are not distributed fairly between different tribal or religious groups. So the best way to check fighting is to make a political arrangement in which all groups have their representatives. The need is to ensure human rights and economic development of all.

The next fundamental freedom is one that is not mentioned in the UN charter. In 1945, the leaders could not imagine that such a situation would arise. That is the freedom of future generations to live on this planet.

Even now many of us have not understood its importance. We are using up the limited resources for our present use. We are over using and even wasting them. We are, in fact, robbing our children of their right to live.

We must preserve our forests, fisheries and wildlife. All of these are collapsing because of our own habit of consuming or destroying them.

1. Answer the following questions briefly:

- (a) Why do most conflicts happen in poor countries?
- (b) What is the best way to check conflicts?
- (c) What is meant by The freedom of future generation to live?
- (d) How are we robbing our children of their basic right?
